150 North Belle Isle—9½
100 Navajo—1 45
150 Mt. Diablo—1 45

The District Fair.

Ormsby county ought to see that the District Fair is made a sure success. There ought to be a good sized pavilion for exhibits, and as this is not likely to be built by private enterprise the county ought to issue bonds to build it. It ought not to take over \$6,000 to build the right sort of a pavilion, and this would ensure a first-class exhibit. No one in this county would object to the small tax which these bonds would incur.

Circumstances Alter Cases.

Two young men at a dancing-school paid a great deal of attention to a couple of young ladies, under the impression that they were relatives of certain parties. Not long after they called to spend the evening and found that the girls were domestics of the house and not relatives. Tableau.

Burglary.

On Monday evening, when Charley Slingerland was at the Opera House, listening to the Decoration exercises, his house was broken into and a saddle and bridle worth \$35, stolen. There is no clue to the thief.

FOR Biliousness, Sick Headache, Constipation, Dyspepsia,

Now when the buds begin to show, 'Tis time for young and old to know That *Fevers* lurk and all The ill at *Indigestion's* call, With every trouble, ache or pain, That follows in the *Bilious* train, Will scatter like the thunders of night, Before a draught of *SELTZER* bright, May 22.

Dr. Robinson.

PHYSICIAN, SURGEON AND OCULIST.

FORMERLY OF VIRGINIA CITY, NEVADA.

OFFICE OVER CHEDIO'S DRUG STORE

Residence at house formerly occupied by Marshall Robinson.

OFFICE HOURS:—9 to 11 A. M. to 3 P. M.

ALL SORTS.

—Did you see the show last night?

—By Downs, of Lake View, was in the city yesterday.

—Prof. C. S. Young, Land Agent of Nevada at Washington, was in the city yesterday.

—FOR SALE.—A large roomy residence in the Western part of the city. Fine location. Apply at this office.

—FOUND.—A steel dog chain, the owner can have the same by proving property and paying for this advertisement.

—The story in the Post about a man thrashing the cashier of one of the banks is pronounced a "make up" by the local organs of capital on the Comstock.

—Eugene Howell writes from Paso Robles Springs that he is getting no better. He says he is all doubled up with rheumatism. He expects to go to San Francisco soon.

—Recent experiments in San Bernardino, says an old resident farmer of that county, demonstrate that gypsum, if applied to alkali lands in the proportion of about four or five tons to the acre, effectually neutralizes the alkali. If the reported find of gypsum on the Palos Verdes develops large quantities it will be of vast importance to those farmers in the country who have land with too much of that ingredient.

—It now transpires that before Pete Olsen killed Mrs. Lyons, at Napa, he told another man that he had purchased a lottery ticket through Mrs. Lyons and that it won \$5,000 which she kept, and that he was going to kill her. He also claims to have been intimate with her. Goldenson slandered Mamie Kelly, Honz Di smirched the name of Mrs. Billiou and Olsen blacked the character of his victim. They all seem to think that by blackening the characters of their victims they can escape the halter. The vile statements made by these wretches will only help them into the hemp.

Kissane.

The Bay papers have begun now to attack General Darr for attempting to bring Kissane to justice; and one of them thinks it an outrage that the Chemical Bank who was robbed by Kissane on a forged check should actually be so merciless as to demand the money. They point to Kissane's wife and children. It is quite evident that Kissane cared more for money than his wife and children when he permitted the expose rather than make honorable restitution. Now the public are asked to have more consideration for the wife and children than Kissane himself showed. If the tone of some of the papers really reflects the sentiment of the people Kissane ought to be taken up and elected Governor of the State.

A Row in Reno.

A man who did not contribute to Decoration Day in Reno was roundly scolded by the press. He replies by stating that he fought in the army and navy, his father in 1812 and his grandfather in the revolution but he refused to contribute because the man who asked him was obnoxious to him, and hints that the Reno G. A. R. is a political machine. The G. A. R. makes a spirited reply to the charge and denies it in toto.

The man who refused to contribute to a certain obnoxious individual might have called around to headquarters and put up. As for the G. A. R. being a political machine, it seems to have kept quite aloof from politics all over the country.

The Big Ranches Must Go.

The Sacramento Bee is leading in an attack on the big ranches of our State, those stumbling-blocks in the way of all true progress, and propose to keep up the fight until the owners of the immense holdings either subdivide them or pay taxes on an honest valuation of their lands. Every paper in California and for that matter every man in the State, should join forces with the Bee and push the fight. We have no healthy, prosperous booms until these almost boundless ranches are out of the way. They must go.—Chico Chronicle.

Notice.

The ladies of the Episcopal Church will hold a strawberry festival at Armory Hall on the 8th of June.

THE BLANKET FISH.

One of the Monsters Caught at the Lake.

On Wednesday evening Mr. Jellerson, who keeps the saloon at Glenbrook, was out bathing in the Lake, when something suddenly wrapped about him like a wet blanket. He was close to shore and got there pretty lively, when he climbed up the wharf the blanket, as it appeared to be, was all wrapped about him in a queer way. He rushed into the rear of the saloon where there was a light, and was horrified to discover that the thing which was wrapped around him was alive. It held on with a terrible suction, and required several men to get it off.

A scientist who was stopping at the hotel pronounced it an *elctys cacythius*, or what is vulgarly known as the blanket fish. It frequents the waters of the polar sea, and is only occasionally found in fresh water except deep, cold lakes, and generally stays near the bottom. It is sometimes found in the Pacific ocean as low as the 35th parallel. It wraps round its victim, and by impeding the motions of its limbs causes it to drown.

It is dark brown in color, with black specks, and weighs about 25 pounds. When stretched out on the wharf it was about six feet long by five broad, and not over an inch thick. It was an object of curiosity all day, and is now on exhibition in the saloon.

Mr. Emery, the stage driver, says he saw Jellerson when he came out of the water, and thought he was wrapped up in a blanket. This is the first ever caught in this section of the world.

Chickens.

When a person has a good deal of leisure time and little sense considerable time may be put in on chickens.

Perversity is the step mother of the hen.

In starting a brood of fowls it is the custom to prepare a number of boxes for them to lay in. Then they always go and lay in the current bushes.

A vegetable garden will not do well near a henery. One hen can handle an acre of garden and down it.

A nice grass plot always looks well near the hen house. When you plant the grass however it is well to tie each hen up to a strong post until the grass plot is in its third year. Then untie the hens and place a close fence around the grass.

Hen lice are worthy of careful study. The hen and the lice ought to be studied separately, but they are hard to separate. A hen on which 100,000 lice cannot annually pasture, is a mighty poor hen.

A hen house should always be closed at night. Your wife will always wake you up at 1:30 to run out and close it.

In driving hens to the North-East, start 'em to the South-West and they go the first way.

A hen that lays four dollars worth of eggs in a year, and some hens do, will eat \$12 worth of grain in the meantime.

For further information on this valuable bird see "Poultry for Profit" a neat 26 page book for sale in Oakland, Cal., price \$1 50.

Answers to Correspondents.

BAKING POWDER CO.—Your full page adv. denouncing the North American Baking Powder Co., as composed of murderers, poisoners etc., to run one year, top of column, next to pure reading matter for \$5 minus commission, cannot be received.

C. P. R. R.—Please cancell our pass at once if you have not already done so, as we do not care to be jolted to death merely to give your old road tone.

HUNTER.—The tough ducks you sent round yesterday will hardly entitle you to a puff in these columns. Quail in season (or fowl) catch us every time.

SACK BEARER.—The man who beat you over the head with a chair yesterday and kicked you out of the door, was a drunken compositor who is only occasionally employed in this office, who mistook you for a bill collector. Will be in tomorrow at 11:30 up stairs.

JAKE KLEIN.—The last keg of beer is empty. Leave another by noon today.

—The notaries are having a good thing taking non mineral affidavits.

THE STATE LANDS.

They Will Soon be Approved for Entry.

During the past two years and a half over 700,000 acres of land in this State have been withheld from the market through the action of U. S. Land Commissioner Sparks, who issued an order requiring non-mineral affidavits on all lands which had been entered, and withholding the balance of the lands until they had been surveyed and recorded as non-mineral.

During the past few weeks thousands of non-mineral affidavits have been sent out of the State Land Office for the signatures of land locators. Prof. Young the Land Agent of Nevada has returned from Washington, where he secured the promise of Commissioner Sparks that the Nevada Land question would take precedence over every thing and be attended to at once.

Prof. Young showed him that the school fund was badly crippled through the order. Commissioner Sparks said that it was a new feature of the case which had not previously come to his knowledge, and that it would be at once rectified. Prof. Young feels certain that the thing will be all squared up this month. Prof. Young has proved himself a working representative of Nevada in Washington.

PACIFIC COAST ITEMS.

—Black bass are plentiful in Russian river.

—San Diego is made lively by a gang of burglars.

—Indians are taking interest in truck-patch farming on the Pyramid Lake Reservation.

—William Wright of Grimes, Colusa County, while playing baseball Sunday, had his left leg and foot broken.

—The libel suits against the Los Angeles Times have been dismissed.

—S. C. Shur, a San Bernardino druggist, killed himself yesterday by accidentally taking an over dose of morphine.

—A Chinese "boss" was killed by another Celestial on the Sackett ranch, about five miles above the town of Woodland, Monday.

—Mrs. Herman Teller shot her husband dead at Cheney, W. T., Tuesday. She claims he threatened to kill her and she acted in self-defense.

—The heat was so intense at Paso Robles last Saturday, that the candles, in domestic use in ordinary candlesticks, were melted simply from the heat.

—The building of a branch line of the Northern Pacific through the Puyallup Indian Reservation has been checked by the refusal of the Indian agent to allow the passage of the road through the grounds.

Itinerant Salvation.

Elko Independent: The train last evening bore a detachment of the Salvation Army, consisting of five soldiers and two soldieresses, who condescended to give our people a free show during the time the train stopped here for supper. The programme as rendered by these soldiers of the Cross consisted of songs, accompanied by soul-stirring music thumped from a tamborine and jerked from an accordion, exhortations and confessions in which each one alternately took a hand, (what a set of scenery scrubs they all have been according to their own stories,) and loud petitions to the throne of grace by each one in succession urged on by hearty ejaculations from the others. Some of their songs were attractive, being rendered in good voice and accord, reminding one of the camp meetings of Lang Syne. This little company of fanatics were on their way to Salt Lake City, where they will beard the lion in his den, with the chances in favor of the lion who, in the shape of some smooth Ephraim of a Latter Day Saint, is liable to gobble the female lambs of the flock.

The 4th. of July.

So far nothing has been done in Carson looking toward a celebration of the 4th of July. It is to be regretted that the Capital of the State should suffer the Natal day of Liberty to pass without a regular old-time celebration. It is not yet too late and our citizens should get together and arrange a programme which will show our neighbors that we are still alive and also awake.

—Wizard Oil at Geo. Thaxter's.

Can it be Possible? We Say Yes!

If You Don't Believe it, Come and Convince Yourself.

—WE HAVE—
450 SPRING AND SUMMER SUITS.

250 DRESS SUITS.

200 BOYS' SUITS.
